Tie-Breaking Criteria:
In the event of a tie, the winner will be the dog participating and earning points in the most numbers of venues. For example, in a tie, the dog that had earned points in all five venues would win over a dog that earned points in only three venues. If a tie still exists, all point values earned in each venue would be combined and totaled for each dog with the highest total score being the winning dog. For example, a dog that had earned a High in Trial in Obedience by winning the Novice B class would count 9 points for High in Trial plus 4 points for winning Novice B plus 3 points for qualifying in Novice B. In the event the dogs were still tied after this tally, ABMC would recognize that an absolutely tie occurred and dual awards would be given.
